

FIND YOUR CONFIDENCE

ACT & SAT TEST PREP

DO I NEED TO TEST?

The testing landscape has been changing and evolving in recent years. It is our recommendation that all students strongly consider taking one of these tests. We look forward to helping you navigate these tough decisions.

WHAT WE DO?

In partnership with Hathaway College Funding we provide a free educational session to help families get clarity and make informed decisions. We also provide 1-1 test prep support for individual students to help them expand their opportunities for college acceptance and scholarships.

FREE TEST PREP COACHING SESSION

Cost: Free

Time: One 60-minute session

The goal of this session is to explain the test-taking landscape and what options you have. Families will leave this session with an actionable test prep plan of how and when to start preparing for their test.

1-1 TEST PREP TUTORING

Cost: \$1400

Time: Ten 90-minute sessions

We build off of the coaching session to help students execute their test prep plan. Tutoring is individualized based on the student's baseline score and goals. If needed tutoring can be arranged and continued with Thrive after the initial 10 sessions.
